Re: Safety Data Sheet (SDS) for Whole Grain

Dear Sand Seed Service Customer,

Effective June 2015 a new government regulation under the Hazard Communication Standard requires that distributors and/or manufacturers of grain make available to our customers a document called a "Safety Data Sheet" more commonly referred to as an SDS. For our company this would include soybeans.

Enclosed you will find an SDS for Whole Grain. If at any time you would like another copy, please contact our office in Marcus or you may down load it off of our web-site at www.sandsofiowa.com.

The primary information being shared on this SDS concerns the hazards associated with combustible dust that may adversely impact workers through inhalation or combustion. If you have any questions concerning the information provided please contact our office at 1-800-352-2228.

Your patience and understanding is appreciated as we comply with this regulation.

Sincerely Yours,

Sand Seed Service, Inc.
